

## TRAININGS

## Technical Service Training

### Matik (TTS Matik Recert)

The objective of this course is to refresh the technical knowledge of AG Machines. Our Trainer is teaching field service and depot service technicians the basics of how to maintain and repair the Ceramill Matik. The training focuses on teaching how to do the regular maintenance, how to exchange / repair defective components and how to adjust and test to ensure the devices are working correctly after service is performed.

Upon successful completion of the course exam, the CST Certificate is issued allowing technicians to perform service on Ceramill Matik worldwide.

**Prerequisites:**

- \_ Technical Hands-on training for Ceramill Matik in last 12 month
- \_ English level B2
- \_ Access to a Ceramill Matik

**Course content:**

- \_ Learn how to correctly install the Machine in a production environment
- \_ Learn how to do regular maintenance of the Machine
- \_ Learn how to perform the 10 most common repairs
- \_ Learn how to calibrate and test the Machine
- \_ Upon successful completion of an exam, receive the AG Technician Status

**Materials provided:**

- \_ Service Documents (Repair videos, Service manual, Checklists)
- \_ Recorded Trainings webinar

**Please note** The number of participants is limited to 10 people to ensure a most efficacious training. Please sign up on the booking page and save your seat for the session with one of our experts.
